WHAT IS THE GLEN:

The original 'The Glen' was established on Land at Chittaway in 1994. In 1997 'The Glen has 20 residential rehabilitation beds. The Transition House (Halfway House for people who have completed our basic rehabilitation program) was established at the Chittaway site in 2010.

In 1994 Ngaimpe Aboriginal Corporation was registered (*and set up The Glen*). Since that date it has been an example of the triumph of the Koori Spirit and how we can make our dreams come true.

The founding motivation for Ngaimpe was the suffering of our people at the hands of drugs and alcohol. Ngaimpe was especially interested in trying to get men (*indigenous and non-indigenous*) out of the criminal justice system and into treatment for their drug or alcohol addiction (*which causes the offending behaviors*).

NGAIMPE TREATMENT:

The programs run by Ngaimpe Aboriginal Corporation are designed to treat a client in a holistic manner to address their issues. This means treating the person as a whole (*spiritually, mentally and physically*). It also means trying to not just treat their addiction but the things that may be causing the addictive behaviors. The programs that Ngaimpe employ through The Glen Centre are about trying to empower people to take control of their lives, to live a good fun life, and to become active members back in their families and the community as a whole.

Our program is based on indigenous values and spirituality with a heavy emphasis on the individual and the consequences of the individual's choices. It includes group sessions, one to one counselling, work programs, sport and meetings of NA or AA.

WHO IS WELCOME AT 'THE GLEN'?

The Glen welcomes all men over the age of 18 who could benefit from our program. The Glen is not limited to accepting indigenous clients only. The Glen is proud to be an organisation that helps break down the barriers between indigenous and non-indigenous Australians and works towards reconciliation.

The Glen acknowledges while Indigenous Australians are struggling with drug and alcohol abuse issues, it is a common problem in all aspects of modern Australian society. Addiction doesn't discriminate on the basis of colour or anything else.
